To whom it may concern, I have been a customer of XM Radio for about one year now. I can not begin telling you how useful it is to me being a long haul over the road truck driver. From the traffic reports ...too the weather as well as the news.

Traffic reports for the major cities is great on many occasions it has helped me in making the proper decision to change my route and not delay me ,same as for the weather,

I urge you strongly do not mandate satellite radio, I for this service just as I pay for cable TV. I feel that by going after Radio you are now treading on soft ground.

Sincerely,  
Richard S. Michels
